Chapter 1

The Overview

The Tacit system consists of the following modules (listed here in no particular order):

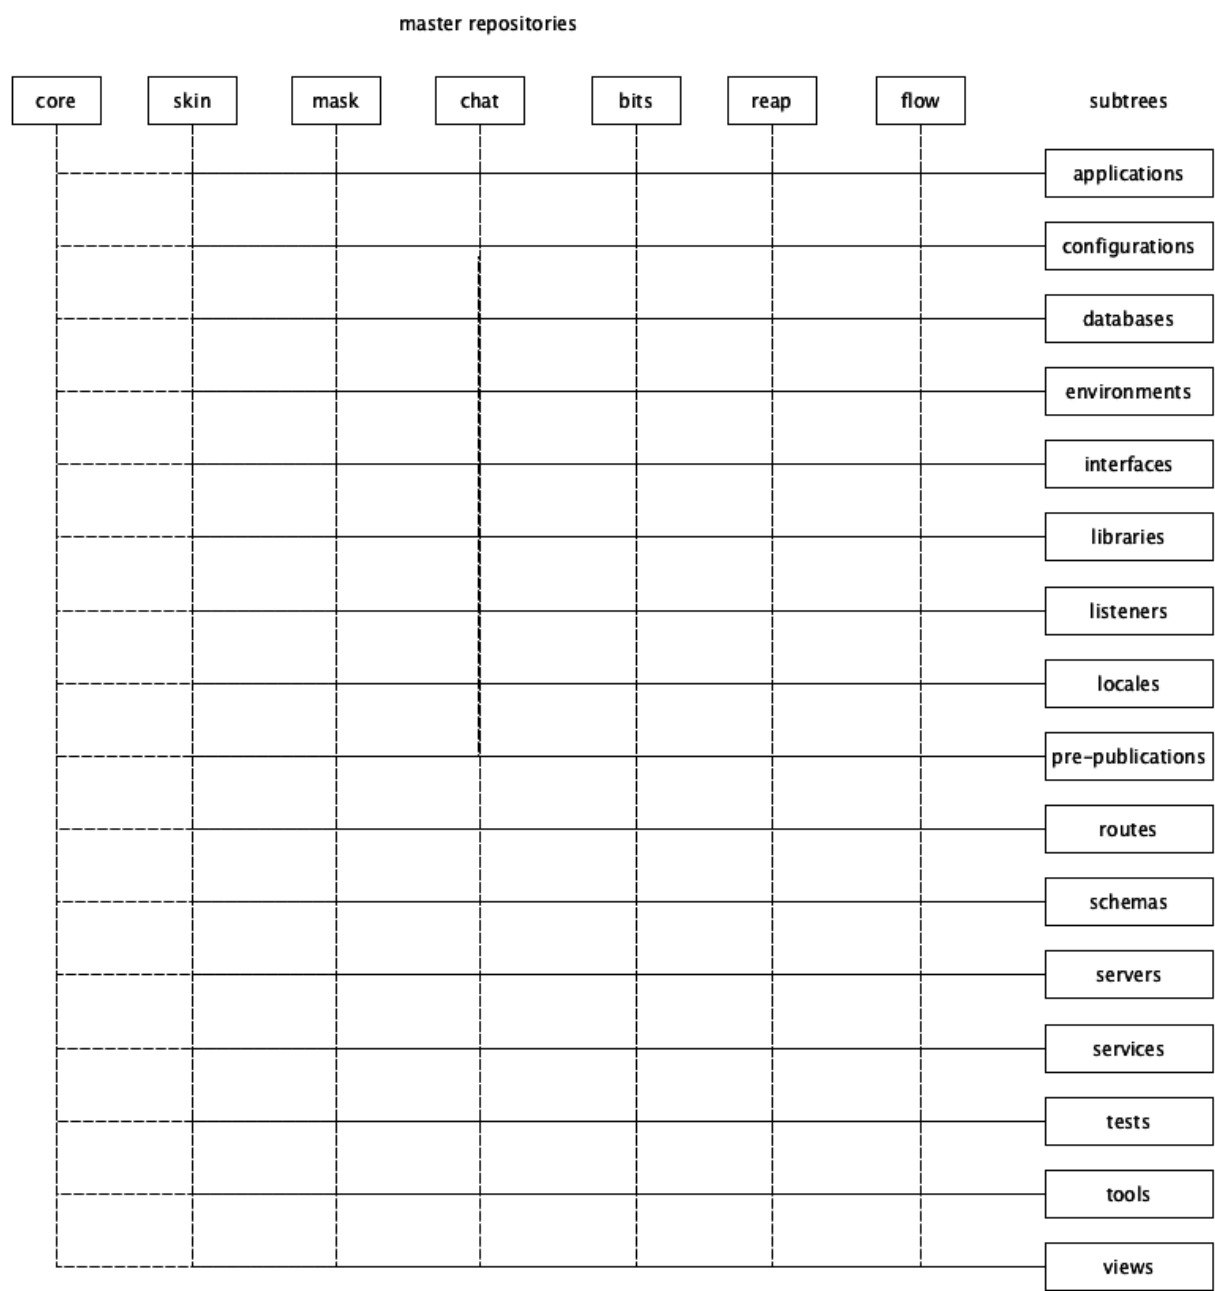

- core
- skin
- mask
- chat
- bits
- reap
- flow

Their relation to one another is depicted below:

System Overview

On Github, the master repositories share centrally managed code kept as subtrees as follows:

Repository Hierarchy

Chapter 2

It was a **bold** and *italic* night!

Suddenly, a shot rang out!

The cabin started to rumble...
